COUNCIL FOR THE ADVANCEMENT OF BLOCKCHAIN
MEETING SUMMARY
March 14, 2019
2:00 p.m.-4:00 p.m.

MEETING DATE
March 14, 2019

MEETING PARTICIPANTS
A. Council Members
Paul Foley, Eric Kintner, Betsy Markey, Hannah Parsons, Paul Quigley, Scott Sanderson, Theresa Szczurek

B. Staff
Jana Persky

MEETING SUMMARY
The meeting was called to order at 2 p.m.

A. Minutes – February 14, 2019
- Parsons motioned to approve the minutes from the February 14, 2019 meeting as written. Foley seconded the motion. Motion passed unanimously.

B. Working Group Updates
- Sanderson shared that he is speaking with experts about the ULC bill and will be setting up a working group call.
- Quigley and Kintner talked about the possibility of setting up a banking services bill (similar to the one Wyoming just passed) during this legislative session. Timing will be difficult for this session but could be a priority for next session.
- Persky and Patty Salazar shared that they will be working on setting up a banking services roundtable.
- Persky announced that Digital Token Act rulemaking will be taking place over the coming months and so community members should look out for invitations to participate.
- Parsons shared that Denver will be piloting a blockchain voting problem. This could serve as a model for government use cases because it was a real problem, had a government sponsor, and went through a focused RFP process.

C. Outside Updates
- Dan Shields shared that there is a team working to propose a blockchain solution for GoCode Colorado. He will send more details via Slack and anyone who would like to join should reach out.

With all agenda items discussed, the meeting adjourned at 3:00p.m.
