Performance-Based Incentive for Film, Television, and Media Production in Colorado

AGREED UPON PROCEDURES

Purpose/Statutory Requirement:

Pursuant to C.R.S. § 24-48.5-116, “Upon completion of production activities in Colorado, a production company that received conditional approval for a performance-based incentive from the office shall retain a certified public accountant to review and report in writing, and in accordance with professional standards, regarding the accuracy of the financial documents that detail the expenses incurred in the course of the film production activities in Colorado. The certified public accountant’s written report shall include documentation of the production company’s actual expenditures, including its actual qualified local expenditures, and any documentation necessary to show that the production company employed a workforce for the in-state production activities made up of at least fifty percent Colorado residents. When the production company provides a copy of the certified public accountant’s written report and the production company certifies in writing to the office that the amount of the production company’s actual qualified local expenditures equals or exceeds the minimum total amount of the production company’s qualified local expenditures as specified in subsection (1) of this section, the office shall conduct a review of the certified public accountant’s written report to ensure the requirement of this section are met. If the office is satisfied that the requirements of this section are met, and the office confirms that the certified public accountant who provided the written report is from the list described in subsection (2)(c)(II)(C) of this section, then the office may issue an incentive to the production company.”

The certified public account described above must be licensed to practice in the state of Colorado and must be both paid for by the production company and selected by the production company from the Colorado Office of Economic Development and International Trade’s list of approved certified public accountants, pursuant to subsection (2)(c)(II)(C), which states that “The Office shall develop a list of certified public accountants that meet the requirements of this section. Such list must be made available to all production companies and must be posted on the office of economic development’s website.” Certified public accountant reviews and written reports that do not comply with the statutory requirements above or the COFTM policies listed below will not be accepted, thus preventing the issuance of a performance-based incentive to a given production company.

Following is a *draft* report, an outline of the minimum necessary procedures and reporting to be performed by the certified public accountant, and two screenshots of the reporting templates to be filled out and used by the production company and certified public accountant.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on compliance with the specified requirements. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you. Because standard audit, review, and examination procedures were deemed insufficient by the Colorado Office of Film, Television, and Media in addressing the workforce, payroll, and vendor expenditure verification it requires to qualify incentive projects, we instead performed the procedures enumerated above, in compliance with the Agreed Upon Procedures document produced by the Colorado Office of Film, Television, and Media and Colorado Revised Statute § 24-48.5-116.

This report is intended solely for the use of the management of the Company and COFTM and is not intended to be, and should not be, used by anyone other than the specified parties.

Expectations and Procedures for CPA Review of Performance-based Film Incentive

NOTE: This document is subject to change pursuant to § 24-48.5-116 (2)(d)

Introduction:

A licensed Colorado CPA, who has completed training with the Colorado Office of Film, Television and Media, must certify both the total dollar amount of Qualified Local Expenditures and the employment of a 50% Colorado Workforce using the Workforce & Payroll Report, the Vendor Spend Report, and all required backup documentation provided by the production company. For Reporting purposes, Qualified Local Expenditure means a payment made by a production company operating in Colorado to a person or business in Colorado in connection with production activities in Colorado. Qualified Local Expenditure consists of 1) qualified wage & payroll payments and 2) qualified vendor payments. In order to certify the total dollar amount of Qualified Local Expenditure and a 50% Colorado Workforce, the CPA must verify:

- 1) Total Workforce and Colorado Workforce**
- 2) Qualified Wage & Payroll Expenses**
- 3) Qualified Vendor Expenses**

Below is a description and breakdown of all of the information necessary for the completion of the “Workforce & Payroll Report” and the “Vendor Spend Report.” In addition, the section titled “Reporting” outlines the different metrics that the COFTM requires in the written CPA report. The following information has been broken out into “Qualified Workforce” and “Qualified Wage & Payroll,” both of which are contained within the Workforce and Payroll Report.

1) Qualified Workforce

a. Definition of Workforce

- Crew or cast members who worked in Colorado but did not have CO income tax withheld are counted in the workforce total but their wages **cannot be counted** as eligible payroll.
- Individuals paid through a loan out company **OR** a single member LLC count as workforce. These individuals must be listed as cast or crew
- Extras (paid or unpaid) and any other unpaid workers (interns, volunteers, etc) **do not count** towards workforce total.

b. Definition of Colorado Workforce

- Colorado Workforce is defined as any crew or cast member that has resided in Colorado for **at least 90 days**, who performs work on the incentivized production **IN** the state of Colorado.

c. Definition of Total Workforce

- The names and positions of the Total Workforce must be supplied to the CPA and the COFTM.

d. Calculation of % Colorado Workforce

- Colorado Workforce divided by Total Workforce is the % Colorado Workforce
- This calculation must be greater than or equal to 50% to meet the statutory workforce requirement

e. Definition of Cast

- COFTM considers cast (both Colorado and Non-Colorado) as any actor who is paid for their services **AND** a member of a SAG-AFTRA union. All other workforce is counted as crew.

f. Verification of Workforce

2) Qualified Wage & Payroll

a. Definitions of Qualified Wage & Payroll

- All qualified wage payments must have occurred within the effective dates of the contract or purchase order
- All wages paid to workers in Colorado – including both Colorado and non-Colorado residents – are qualified wage & payroll expenses as long as Colorado income tax is withheld (see section below for more detail).

- All wages paid to cast & crew through loan-out companies or single member LLCs count as payroll, not vendor spend. Individuals paid through either of these options should be listed on the Workforce & Payroll Report, along with any payments made to them.

- Fringes (Medicare, Social Security, FUI, SUI, vacation/holiday/sick pay, PH&W) are qualified payroll expenses for CO resident cast & crew only. SUI paid for non-CO resident cast & crew is a qualified payroll expense as long as the non-CO resident withheld income taxes in CO. Fringes other than SUI paid to non-CO residents are not qualified payroll expenses.

b. Taxes and Method of Payment

- All positions from the “Qualified Labor and Payroll by Department” list are considered cast/crew members (regardless of their method of payment) and must have Colorado income tax withheld (regardless of residency) in order for their wages to be counted as a qualified expense.

 - The compensation is subject to federal withholding for income tax purposes;
 - AND
 - The employee is a Colorado resident (whether working inside or outside of Colorado);
 - OR
 - The employee is a nonresident of Colorado performing services in Colorado
- Cast & crew can be paid as employees using a payroll service. They may also be paid using a loan-out company or single member LLC (i.e. as a “contractor”). Any non-CO resident paid through a loan-out or single member LLC must also have CO tax withheld or provide proof of CO tax withholding. CO residents paid through loan-out companies or single member LLCs do not need to prove tax withholding

- Verify that expenses were paid to Colorado companies only
- Verify that expenses occurred within the effective dates of the contract or purchase order
- Verify that no alcohol or dispensary expenses are included
- Verify that vendor spend is for a qualified vendor category (see “Qualifying Vendor Spend” list)

c. Exclusions from Qualified Vendor Expenses

- Purchases with no receipts
- Non-Colorado vendor purchases or purchases from online retailers
- Alcohol or dispensary purchases

- Fundraising and distribution expenses

d. Important Cases & Considerations for Vendor Expenses

- **Airfare** – only qualified if purchased through a Colorado-based travel agent or through an airline whose corporate headquarters is located in Colorado.
- **Equipment Purchases** – if non-disposable equipment is purchased or leased longer than the incentivized production period, the full cost of the item cannot be qualified. To qualify the expense, calculate the average daily rate of the equipment and charge for the number of days the equipment is used.
- **Intermediary Companies** – Intermediary vendors like Airbnb, Lyft, and Uber are qualified expenses if the overhead fee that goes directly to the company is removed. Only fees going to Colorado homeowners or drivers who are Colorado residents can be claimed.
 - **Uber:** Generally, Uber drivers retain 75% of a total fair because Uber takes a 25% service fee. Accordingly, when providing qualified expenses for Uber fairs, deduct 25% from the total fair.
 - **Lyft:** Generally, Lyft drivers retain 75% of a total fair because Lyft takes a 25% service fee. Accordingly, when providing qualified expenses for Lyft fairs, deduct 25% from the total fair.
- **Mileage Reimbursements** – mileage may be reimbursed at the IRS rate only for travel within state lines.
- **Online Shipping Purchases** – shipping charges are qualified expenses only if the transaction takes place in a branch located in Colorado. Shipping services purchased online do not qualify.
- **Production Office Expenses** – only short term leasing of rental space, internet, and phone set-up are qualified. If the production has a permanent office operating in Colorado, these expenses are not considered qualified as they are normal operating expenses that extend past the incentivized project.
- **Rent** – Rent for a production office is only a qualified expense if the production office is temporary and rented solely for the purpose of the incentivized production.
- **Gear/Equipment Purchases** – COFTM cannot qualify equipment rentals in which a production company pays themselves for their own equipment. However, equipment can be counted under the following conditions:
 - Equipment is rented from a third party Colorado vendor
 - If the production company receiving the incentive is contracted by a third party to create the film/TV show/video game, the equipment rental rate established in the initial budget and/or contract may be included as a qualified expense. This initial, agreed upon budget or contract with the third party hiring the production company must be included as supporting documentation.
 - If a production company purchases new equipment for an incentivized production, they may not include the entire cost of the equipment. However,

they may include a daily rate based on fair market rental rates for the number of production days during which it is used.

■

e. Documentation Needed for Vendor Expense Verification

- Original Receipts or Invoices with:
 - Dates
 - Vendor Name
 - Vendor Address
- Full vendor list from production company
